Education

FULL STACK DEVELOPER

John Abbott College
Montreal, Canada
10/2023 – 01/2025

Bachelor's Degree in Environmental Art
Design
Tsinghua University
Beijing, China

Projects

DATABASE MANAGEMENT SYSTEM – Interact Health PRO

- Developed a robust database management system using **ASP.NET Core MVC** and **C#** to manage customer data, appointments, and business workflows.
- Utilized **Entity Framework Core** for seamless database operations, including querying, tracking, and reminders.

BOOKSTORE – website

- Built a full-stack Maven application with **Spring Boot** for RESTful CRUD operations and **Spring MVC** for backend logic.
- Integrated **MySQL** database and a **Thymeleaf**, **CSS**, and **Bootstrap** frontend, with **Spring Security** for user permissions.

COMMUNITY FORUM APPLICATION - OurForum

- Developed a full-stack, front-end/back-end separated application with **React** and **TypeScript** for the frontend, **ASP.NET C#** for the backend, and **Firebase** as the database. It supports user registration, profile management, posts, follows, likes, and comments.

CASS TEAS – website

- Designed a responsive bilingual e-commerce site using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, and **jQuery**.

GRAVITY – game

- Developed a 2D side-scrolling adventure game with **Unity** and **C#**, showcasing game logic and design skills
-
